Experiencing God

Seven Realities for Experiencing God · an eight-session study

Seven Realities for Experiencing God examines seven scriptural realities — those Moses experienced in Exodus 3 — that teach believers how to develop an obedient love relationship with God. This eight-session study overviews the seven realities and then, session by session, explores truths like “God is always at work around you” to introduce a biblical pattern by which God reveals His will so that believers can join His activity in the world.
